## DL-5000 TICKET EATER®

The standard unit with a hard mounted 4-digit display is an incredibly accurate, high speed auto-feed mechanism for time saving counting and disposing of tickets.

### FEATURES:

- Optimal stand dimensions:  
12 ½" L x 11 ¾" W x 4 ¼" H
- Available in 120 Volts AC 60Hz or 230 Volts AC 50Hz
- Accepts standard redemption tickets:  
2" x 1 ⅝"
- Speed: Greater than 13 tickets/second
- Resettable electronic counter
- Hard mounted display dimensions:  
4" L x 2 ¼" W x 1 ¾" H
- Automatic internal circular blade

The DL-5000 Ticket Eater® offers a quick, mistake proof set-up. No more weighing or hand shredding with an internal inventory counter (7 digit, non-resettable). An optional ticket eater stand is also available for more convenient operations. Perfect for glass counter tops or restricted areas. The external display will rest with the touch of a button.

Optional Large Remote Display
