FRONT LOAD CHANGE MACHINES

BETSON™

The Best Technology & Construction in a Low-Cost Solution

Standard Change-Makers presents the MC700 Series Change Machines, a high security, low-cost changer solution. The MC700 Series combines Standard's heavy-duty cabinet design and component construction with our Smart Hopper technology. All this in a simple-function, low cost solution!

The heavy gauge steel and no visible hinges provide added security for coin laundries, car washes and other businesses concerned about their investment. Further, the MC720-DA has our exclusive **Dual Redundancy** feature - that provides built-in back-up.

MC720-DA

Shown with optional Vending Base & TOKENS Graphic.

- **MDB Serial Interface** provides more accurate communication between Hopper & Bill Acceptor.
- **Switching Power Supply** generates less heat - which adds longer life and better performance.
- **Programmable Smart Hopper** allows push-button functional programming without the need for a handheld device.
- **Flash Code Error Display** allows you to troubleshoot problems quickly and easily.
- **Easy to Service** - Easy access to the Control Board, and easy serviceability in the field.
- **Motor Driven Hopper** - No need for belts or chains.
- **Two Year Limited Warranty.**

Standard Change-Makers products are proudly ETL certified in accordance with UL 756 and CSA-C22.2 No. 128
