

MODULAR SERIES

FRONT LOAD CHANGE MACHINES

BETSON™

The Best Technology & Construction in a Low-Cost Solution

Standard Change-Makers' Modular Series change machines provide the solid cabinet construction of a Standard changer with the popular 'plug & play' technology - featuring the reliable *Smart Hopper Technology*. All this in a low-cost solution!

The Modular Series machines feature solid welded, steel cabinets, stainless steel coin cups, T-handle locks and your choice of different brands of bill validators for \$1 through \$20 bill acceptance. Both models also have optional Vending Bases (and Headers for Vending applications) that meet ADA height requirements.

If you are looking for a dependable change machine that will provide years of reliable service, and don't need a lot of "bells & whistles" - These are the perfect models to consider.

MC100 32" H x 8.5" W x 13" D - 90 lbs

MC200 26" H x 13.5" W x 13" D - 106 lbs

- **High Quality Construction at a Low Price.**
- **MDB Serial Interface** provides more accurate communication between Hopper & Bill Acceptor.
- **Switching Power Supply** generates less heat - which adds longer life and better performance.
- **Programmable Smart Hopper** allows push-button functional programming without the need for a handheld device.
- **Flash Code Error Display** allows you to troubleshoot problems quickly and easily.
- **Easy to Service** - Easy access to the Control Board, and easy serviceability in the field.
- **Motor Driven Hopper** - No need for belts or chains.

Standard Change-Makers products are proudly ETL certified in accordance with UL 756 and CSA-C22.2 No. 128
